

Bohdan Astakhov

Full-Stack Developer

Profile

Full-stack developer specializing in **Payload CMS**, Stripe billing, and AI integrations for SaaS platforms.

Experience

Full-Stack Developer

July 2025 — Present

Cyber Pioneers Inc.

Remote

- Shipped product features end-to-end across the SaaS suite — **B2B AutoTech (body-shop management), internal HR/finance ops with AI, and marketing automation** — owning UI, API, schema, and deployment.
- Built plan-gated Stripe subscription flows powering paid tiers across the suite.
- Integrated AI features through Vercel AI SDK (OpenAI, Anthropic, ElevenLabs) — agent evaluations, content generation, voice synthesis.
- Added Qdrant-backed semantic search, replacing keyword matching for AI-driven recommendations.
- Own production deployment across multiple VPS — Docker, Nginx, GitHub Actions CI/CD, Watchtower auto-deploy.
- Participate in code reviews; scope features with PM; support onboarding of new hires.

Selected Projects

DDNet Bingo github.com/pippsza/ddnet

Bingo and race platform with a companion Telegram bot for the DDraceNetwork gaming community. Next.js + Payload CMS. Custom Docker setup spawns per-game Teeworlds server containers from the main app (Docker-out-of-Docker) with native SQLite3 rebuild. Playwright e2e. Live at bingo.pippsza.dev.

Steam Diploma github.com/pippsza/steam-diploma

Steam-inspired content platform with AI-powered recommendations built on RAG (Vercel AI SDK over embedding-based retrieval). Next.js + MongoDB. Live at sen.pippsza.dev.
