Remote

- Shipped product features end-to-end across the SaaS suite — B2B AutoTech (body-shop management), internal HR/finance ops with AI, and marketing automation — owning UI, API, schema, and deployment.
- Built plan-gated Stripe subscription flows powering paid tiers across the suite.
- Integrated AI features through Vercel AI SDK (OpenAI, Anthropic, Eleven-Labs) — agent evaluations, content generation, voice synthesis.
- Added Qdrant-backed semantic search, replacing keyword matching for AI-driven recommendations.
- Own production deployment across multiple VPS — Docker, Nginx, GitHub Actions CI/CD, Watchtower auto-deploy.
- Participate in code reviews; scope features with PM; support onboarding of new hires.
