EXPERIENCE

Full-Stack Developer, Cyber Pioneers Inc. July 2025 — Present

SaaS suite for B2B AutoTech (body-shop management), internal HR/finance ops with AI, and marketing automation — small fully-remote team

- Shipped product features end-to-end on Next.js, Payload CMS, and MongoDB — UI, API, data model, deployment.
- Built plan-gated Stripe subscription flows powering paid tiers across the suite.
- Integrated AI features via Vercel AI SDK (OpenAI, Anthropic, ElevenLabs) — agent evaluations, content generation, voice synthesis.
- Added Qdrant-backed semantic search, replacing keyword matching for AI-driven recommendations.
- Own production deployment across multiple VPS — Docker, Nginx, GitHub Actions CI/CD, Watchtower auto-deploy.
- Participate in code reviews, scope features with PM, support onboarding for new hires.

PROJECTS

DDNet Bingo — github.com/pippsza/ddnet · bingo.pippsza.dev

Bingo and race platform with companion Telegram bot for the DDraceNetwork community. Next.js + Payload CMS. Each match runs on its own dedicated game server. Playwright e2e.

Alla Studio — allastudio.com

Commissioned production website for a beauty-studio client. Next.js + Payload CMS + Tailwind. Custom CMS (masters, services, prices, reviews) with role-based access and an animated Three.js 3D backdrop.
